January 2015

Dear Greenwich STEM Professionals,

Happy New Year! I am excited to announce that the Greenwich Central School District is in the process of reviewing and improving Science, Technology, Engineering and Mathematics (STEM) opportunities for our students. We feel strongly that our program should reflect real opportunities to prepare students for success in college and careers in our region. In addition to forming an internal k-12 STEM Action Team we are looking for community members to join our STEM Advisory Committee. The advisory group will share real world STEM knowledge and resources to help develop future partnerships and opportunities for Greenwich students. Additionally, the Advisory Committee and Action Team will collaborate on a long term vision for STEM in the Greenwich Central School District that best meets the needs of Greenwich students.

If you would be interested in participating on the district’s k-12 STEM Action Team please e-mail dsmith@greenwichcsd.org. Our first meeting is scheduled to be held in the Greenwich DPPS Conference Room at 2:50 PM on January 22, 2015. More information is included on the attached flyer. Please do not hesitate to contact me at (518) 692-9542 if you have additional questions.

Witches are Great,

Mr. Mark Fish
Superintendent of Schools

“STEM Education refers to utilizing the NYS MST Standards in the teaching and learning of the Science, Technology Education, Engineering and Math (STEM) disciplines, in an innovative, integrated, collaborative, and applied fashion to a level of challenge sufficient for college and/or career readiness.” (Developed in part from the National STEM Initiative)
